

## PUBLICATIONS

1. M. Kumbar, "Brownian Motion of Lipid Molecules," J. Macromol. Sci-Chem. [A19](#), 155 (1983).
2. V. T. Maddaiah, M. Kumbar, and P.J. Collipp, " Interaction of N-Phenyl-1-Naphthyl Amine and 1-Anilino-8-Naphthalene Sulfonate with Glucose-6-Phosphatase of Heptic Microsomes," Symp. on Cellular Function and Molecular Structure-Univ. of Missouri- Columbia, May, 1977, Editors P.F. Agris, B. Sykes, and R. Loepky, Academic Press, New York 1978.
3. M. Kumbar and V.T. Maddaiah, "A Conformational Study of N-Phenyl-1-Naphthyl Amine and 1-Anilino-8-Naphthalene Sulfonate by the Empirical Method," Biochim. Biophys. Acta. [497](#), 707 (1977).
4. F.A. Bettelheim and M. Kumbar, "An Interpretation of Small Angle Light Scattering Patterns of Human Cornea," Invest. Ophthalmol., [16](#), 233 (1977).
5. M. Kumbar, "Excluded-Volume Effect on Helix-Coil Transition in n-Stranded Molecules," J. Chem. Phys. [53](#), 1036 (1970).
6. M. Kumbar, "Investigation of the Effect of the Solvent Medium on the Conformational Behavior of Phenylethylamines by Empirical Method," J. Med. Chem., [19](#),1232 (1976).
7. M. Kumbar, V. Cusimano, and D.V. Siva Sankar, "Quantum Chemical Studies on Drug Actions. V. Involvement of Structure-Activity, Quantum Chemical, and Hydrophobicity Factors in the Thrombocyte Uptake of 5-Hydroxytryptamine," J.Pharm. Sci. [65](#), 1014 (1976).
8. M. Kumbar and D.V. Siva Sankar, "Effect of Dielectric Constant on the Conformational Behavior of Tryptamine and Serotonin," J. Am. Chem. Soc. [97](#), 7411 (1975).
9. M. Kumbar and R. MacColl, "Effect of Aromatic Molecules on the Aggregation of C- Phycocyanin: Quantum Chemical Calculations on Phycocyanobilin and Phycoerythrobilin," Res. Commun. Chem. Pathol. Pharmacol. [11](#), 627 (1975).
10. M. Kumbar and D.V. Siva Sankar, "Preferred Conformations of Serotonin in Relation to Receptor Sites," Res. Commun. Chem. Pathol. Pharmacol. [10](#), 433 (1975).
11. M. Kumbar and F.A. Bettelheim, "Cornea Model: Light Scattering Patterns from a Two-dimensional Non-Random Assembly of Anisotropic Rods," Polymer J. [7](#), 449 (1975).
12. M. Kumbar, "Stable Conformations of Histamine by Empirical Method," J. Theor. Biol. [53](#), 333 (1975).
13. M. Kumbar, "Dynamic Model for Sedimentation of Supercoiled Molecules," J. Theor. Biol. [51](#), 307 (1975).
14. M. Kumbar and S. Windwer, "Configurational Properties of Polymethylene Chain by Direct Enumeration Method," Macromolecules [7](#), 624 (1974).
15. D.V. Siva Sankar and M. Kumbar, "Quantum Chemical Studies on Drug Actions IV. Correlation of Substituent Structures and Anti-Serotonin Activity in Lysergamide Series," Res. Commun. Chem. Pathol. Pharmacol. [7](#), 259 (1974).

16. M. Kumbar, "Supercoiled DNA; Hydrodynamic Model," J. Theor. Biol. [43](#) 253 (1974).
17. M. Kumbar and D.V. Siva Sankar, "Quantum Chemical Studies on Drug Actions. III. Correlation of Hallucinogenic and anti-serotonin activity of lysergic acid derivatives with quantum chemical data," Res. Commun. Chem. Pathol. Pharmacol. [6](#), 65 (1973).
18. M. Kumbar and D.V. Siva Sankar, "Quantum Chemical Studies on Drug Actions. II. Quantum Chemical Data on Derivatives of the Catechol, Indole, Imidazole Amines and of Spermine and Spermidine," Res. Commun. Chem. Pathol. Pharmacol. [5](#), 45 (1973).
19. M. Kumbar, "Hydrodynamic Properties of Ring Macromolecules with Increasing Chain Stiffness and Excluded Volume," J. Chem. Phys. [59](#), 5620 (1973).
20. M. Kumbar, "Non-Gaussian Theory of Rubber Elasticity," J. Chem. Phys. [59](#), 1672 (1973).
21. M. Kumbar, "Hydrodynamic Properties of Supercoiled Linear Molecules," J. Chem. Phys. [58](#), 2874 (1973).
22. M. Kumbar, "Comparative Study of Distribution Functions for Excluded Volume Problems," J. Macromol. Sci-Chem., [A7](#) (2), 461 (1973).
23. M. Kumbar, "Determination of Cooperativity Parameter from Hydrodynamic Data," J. Chem. Phys. [58](#), 1538 (1973).
24. M. Kumbar and D.V. Siva Sankar, "Quantum Chemical Studies on Drug Actions. I. Inhibition of Synaptosome dopamine uptake by antihistaminic pheniramines," Res. Commun., Chem. Pathol. Pharmacol. [4](#), 707 (1972).
25. M. Kumbar, "Conformational Study of Macromolecular Systems," J. Macromol. Sci-Chem., [A6](#) (7), 1311 (1972).
26. M. Kumbar and S. Windwer, "Conformational Study of Dipeptides," J. Macromol. Sci-Chem. [A6](#) (7), 1403 (1972).
27. M. Kumbar, "Radius of Gyration of Macromolecules with Increasing Stiffness and Excluded Volume," J. Chem. Phys. [55](#), 5046 (1971).
28. M. Kumbar, "Excluded Volume in Macromolecules," J. Macromol. Sci-Chem. [A5](#) (8), 1315 (1971).
29. M. Kumbar, "Helix to Random Coil Transition in n-Stranded Molecules with Excluded-Volume Effect," J. Chem. Phys. [55](#), 2079 (1971).
30. M. Kumbar and S. Windwer, "Study of Self-Avoiding Walks with Excluded First Nearest Neighbors," J. Chem. Phys. [54](#), 5051 (1971).
31. M. Kumbar, "Distribution Function for Excluded-Volume Problem," J. Chem. Phys. [53](#), 1038 (1970).
32. M. Kumbar and S. Windwer, "Direct Enumeration Study of Self-Avoiding Configurations on the Tetrahedral Lattice," J. Chem. Phys. [50](#), 5257 (1969).

33. M. Kumbar and S. Windwer, "Monte Carlo Study of Rings on the Tetrahedral Lattice," J.Chem. Phys. [49](#), 4507 (1968).
